## About Me

After working in the financial and then gaming industry for several years I have decided to take the path of a [Web Developer](#) (Front-End). For that I have obtained the diploma for the [Applications Developer \(React\)](#) and completed multiple projects related to it.

## Skills & Qualifications

- Front-End Developer (Bachelor's degree, level 6, OpenClassrooms)
- Knowledge of API, Front-End Development, React Applications, Technical Writing
- Former experience working in the gaming and financial industry (Bachelor's degree in World Economy, level 7)

## Technical Experience

- Languages: JavaScript, basics of Node.js
- Front-End Frameworks/libraries: React, basics of Next.js
- CSS Frameworks: Bootstrap, Tailwind CSS
- Databases: basics of MongoDB
- Other: HTML, CSS, SASS, git, VSCode, Figma, Vercel, Netlify, Redux

## Projects & Accomplishments

To see the detailed information about the projects, open the following links (descriptions are provided in the Readme files):

- [My GitHub Profile Site](#)
- [Diploma Projects \(Front-End Developer\)](#)
- [Projects specific to the React usage](#)
- [Personal site I've built to learn React](#)

## Work Experience

### **RECLASSIFICATION / DEVELOPER | BLIZZARD ENTERTAINMENT**

07/2021 - 01/2023

During the company-provided reclassification period I have completed a diploma program for the Front-End (React) Developer on OpenClassrooms as well as various courses on Udemy, Scrimba and Codecademy platforms.

- Completed 14 [Front-End-related projects](#) for the course of React Developer
- Obtained a professional qualification (bachelor's-level diploma)
- Worked with modern stack of technologies (React, JavaScript, Git, HTML5, CSS3)
- Obtained several [certifications](#) while working on different courses and personal projects

### **SPECIALIST IN CUSTOMER SERVICES | BLIZZARD ENTERTAINMENT**

07/2013 - 07/2021

Worked in Blizzard Entertainment as a specialist in customer services with a primary focus on in-depth technical assistance and product support.

- Provided technical / account / in-game support for all of the company's products
- Took part in quality assurance, products testing, translations and community relations
- Supported multiple product launches
- Was in charge of providing second-level technical assistance for various complex hardware / software issues
- Took part in the internal learning and development process by providing trainings / mentorship to the colleagues

## **OPERATIONS MANAGER | ORIENT EXPRESS BANK**

08/2011 - 12/2012

Worked as a senior specialist of one of the bank's offices.

- Was in charge of the bank's office performance and KPI
- Worked on the whole range of financial services
- Managed a small team of employees
- Assisted with resolving various clients issues and providing mentorship to the colleagues

### **Additional Information**

- I speak English, French and Russian and have a basic knowledge of German
- In my free time I like writing about my developer path (you can check it [here](#))
- My hobbies are: PC building, fitness, reading & writing
